Instructions

Pay Attention

1. Do not plug or unplug the power supply when there is water in your hand, pay attention to personal safety;
 2. When using, try to avoid impact and knocking with hard objects, and do not scratch with sharp objects to prevent damage to the instrument shell;
 3. When there is dust on the surface of the instrument shell, wipe it with a rag and do not use chemical agents;
 4. Pay attention to uniform force when using the keys to ensure the long-term normal use of the instrument;
 5. For those who do not have the ability to express themselves (such as children), adults should be there to take care of the whole process;
 6. Do not use it in a room with high temperature and humidity (such as a bathroom) or while bathing;
 7. Be sure to turn off the power after use, and unplug the ionizer from the host.
- If the following conditions occur, please turn off the switch immediately, cut off the power supply, and contact the place of purchase for after-sales service
1. Accidentally spill water or liquid on this product, this situation may cause electric shock.
 2. The instrument is damaged and internal parts leak.
 3. If abnormal or severe pain occurs during use, please stop using it immediately and seek medical advice.
 4. If you notice any mechanical failure or abnormal condition during use, please stop using it immediately.
 5. In the event of abnormal current interruption during use, care should be taken to avoid injury to users due to sudden power recovery.

Model size specifications

Model: SDF-002
Size: 153.8*134.2*37.8mm
Bare metal weight: about 0.4Kg

Electrical characteristics

Working voltage: AC100~265V~47/63Hz
Adapter: output 15V/4A
Power: Standby power 3.5W, maximum power 60W
Working environment temperature: -10°C~+45 °C

Button

FIG. 1

1. Foot bath
2. Stop
3. Set up
4. Time+
5. Time-

Connector location

1. Generator

3. Power

FIG. 2

Display function area

FIG. 3

1. Foot bath mode
2. PPb display
3. Positive and negative ion display
4. Foot bath time

Operation function description

Before using the device, check whether the power supply, display, fan, ionizer, and wrist strap of the device are properly connected

- Start key
Start the instrument. After starting, only the stop button is valid, and other buttons are invalid;
- Stop button
This button stops the instrument, and the working time returns to 31 minutes;
- Set key
Press the set button to select the man, woman, child, mode, and the corresponding Time min time will flash at the same time, press the + and - keys to adjust the working time, each step is 1 minute;
- +, - keys, set time increase and decrease

Precautions

Before using the device, check whether the power supply, display, fan, ionizer, and wrist strap of the device are properly connected

- Before starting the instrument, first set the mode and time through the setting button, it cannot be set after starting, only the stop button is effective after starting;
- After the instrument is started, the working time decreases until the end of the work
- The maximum PPb does not exceed 2800, otherwise the instrument will give an alarm, pay attention to adding salt gradually when adding salt;
- The best working PPb of the instrument is between 2200~2600;

Machine failure self-check

- If it can't be turned on after connecting the power supply: Check whether the power cord is loose.
- After the machine is powered on, if the foot massage function fails to start normally: check whether the wrist strap is connected; check whether the ionizer is plugged in or whether the ionizer steel ring is exhausted, if it is exhausted, please replace with a new ionizer.
- If the machine displays a flickering screen or a black screen while the machine is working, replace the ionizer.
- If the problem cannot be solved by itself, please return to the factory for repair in time.

Troubleshooting

If the following problems occur when using this product, please refer to the following tips to troubleshoot. If the product is still in a faulty state and cannot be used, please turn off the instrument and contact the after-sales service center of the sales agent. Users are not allowed to dismantle or repair this product by themselves. Dismantling or repairing by themselves may cause damage to the product and cause the product to fail. The customer shall bear the consequences.

Malfunction	Approach
No PPb value display	Check the wrist strap, whether there is any problem with the generator (replace the accessories to confirm)
Crash	Unplug the power and restart
Key failure	Unplug the power and restart
Show splash/black screen	Please replace the ionizer
