01 Company History

Guangzhou Yanran Medical Equipment Technology built in 2010 in Guangzhou of China.

At the beginning of the company's establishment, we just help all customers or trading companies to do production and processing. We mainly focused on production in order to provide customers with high-quality products to ensure quality. We made for all customer with the'rWith more and more experience and profession in manufacture, we gradually found that a single production is also very limited to the product and our company development. So five years latter, we established our own R&D department and applied for our own brand "SDYFU" to develop more and more high quality wellness and health products. We have expanded from a single ion detox product series to more health products, including hydrogen molecular bath and foot bath, hydrogen molecular water cup, hydrogen inhalation machine, etc. Our goal is to provide good quality health and wellness products to help people keep and improve their health through natural physiotherapy method.

With strong productivity, advanced development and design, professional sales and after-sales service, our company has formed a mature management system to provide customers with better and more professional services and cooperation.

Factory Instruction

With more than 11 years' development, our company now has about 200 employees, a factory area of 15,000 square meters, and a monthly output of 100,000 units, which help us win the trust and long time cooperation of customers from the whole world. There are Total 5 production lines for different product series. With R&D department, raw material purchasing department, production line, test department and package department, each step has been controlled carefully to ensure the quality and on time delivery.

R&D Department is very important part for company's growth. Each year, we will spend millions RMB on development of new products. Every product need repeated experiments to discover and solve any potential problems that may exist to ensure the smooth launch of the product on the market . Discussing and developing new products with customers together is very meaningful and helpful to the growth of both parties.

Factory Production Lines

Mature and complete production management and quality control are the decisive factors to ensure that products can be shipped in quality and quantity, and they are also an important ability to discover and solve potential and unexpected problems.

Raw material warehouse:

All raw materials need check well before entering the warehouse

Test and inspection:

All finished products need be tested and inspected one by one carefully

Production lines:

Different production lines for different products, each step controlled well for quality

Packing:

All products are packed with designed colorful box to protect products well

Ion Detox foot Spa Machine

Sdyfu ion foot detox machine uses both brass and stainless steel electrodes, which can clean, balance and enhance biological energy, which is an important force in human body fluids. Detox machines are widely used to increase mental and physical energy and rejuvenate, increase physical strength, and at the same time make the body's chemicals, pollution, radiation, synthesis, toxins and a large number of foreign substances discharged into the skin layer. The negative ions produced through electrolic reaction involving the array, salt and water, are transported to the whole body through the circulatory system and lymphatic system, neutralizing the oppositely charged toxins in the cells that usually leave the body slowly. The organs of the human body become vigorous and stimulated, so that the human body is better free of these toxins.

Product name:	Sdyfu Ion Detox Foot Spa
Working voltage:	100v-240v 50-60HZ
Packing size:	52 * 17 * 41CM
OEM / ODM:	YES
Model:	SDF-E817U
Power:	24W
Weight:	1.5kg/2.5kg

Taking ion detox foot spa can help you to balance PH, improve immunity, reduce fluid retention, reduce inflammation, improve memory, improve bladder control, a stronger immune system and obvious pain relief effects, including but not limited to arthritis, gout and headaches and more benefits to your health.

Ionic Foot SPA

Product Name	Ionic Foot SPA
Model	E817Y
DC Power	45W
Max Current	3A
Voltage	15V DC
Packing size:	35*14*39.2CM
Gross Weight :	1.45KG

Deeply troubled by aging and sub-health? Try The Ionic Foot SPA.

It is made of sturdy 304 stainless steel and utilizes advanced electrolysis technology to efficiently convert water into highly active ionic clusters, centering around the core of “Ionic Health” for health empowerment.

When using the Ionic Foot SPA, ions penetrate from the feet and circulate throughout the body with the blood, neutralizing harmful free radicals, deeply antioxidant, repairing damaged cells, enhancing metabolic efficiency, and eliminating toxins.

Through ionic penetration, it helps maintain cellular vitality and supports the improvement of sub-health conditions. Help you regain full energy and embrace a vibrant, youthful well-being experience physical-mental lightness.

Use The Ionic Foot SPA to start your healthy foot bath experience with a single click, creating a convenient new experience for you to fight aging and improve sub-health.

HengTong Instrument

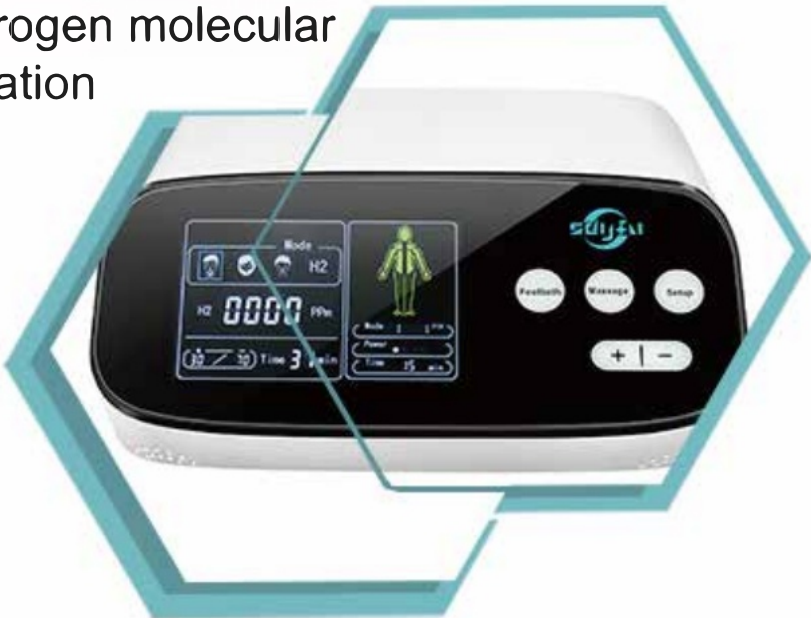

Hydrogen content:	2800PPB
Working voltage:	220V ~ 50Hz
Output voltage:	15V, 4A
Power:	60W
Working environment temperature:	-10°C+45 °C
Electrolysis time:	31 minutes
Hydrogen production: H2 Mode Long press the switch for 3 seconds to start hydrogen production, and automatically shut down the system after 31 minutes of electrolysis	

Macromolecule hydrogen water beauty, no additives, green, healthy and environmentally friendly, no side effects, full body bath, facial spa, and full-scale deep care of high-concentration hydrogen water. Hydrogen quickly penetrates the surface of human skin and penetrates into all parts of the body. It can reach the heart in 15 minutes. It quickly penetrates the skin cells and tissues to

achieve anti-oxidation, wrinkle removal, skin elasticity and skin smoothness. It can effectively improve fatigue, skin diseases, and have obvious effects on rheumatism, joint pain and other diseases

- 1.The main function of hydrogen molecular foot bath/bath,the concentration of hydrogen molecules can reach 2800ppb.
- 2.Negative ion mode: man/woman/child
- 3.Pulse massage patch: 8 massage modes, 6 massage intensities

7 Generation Ion Detox Foot Spa Machine

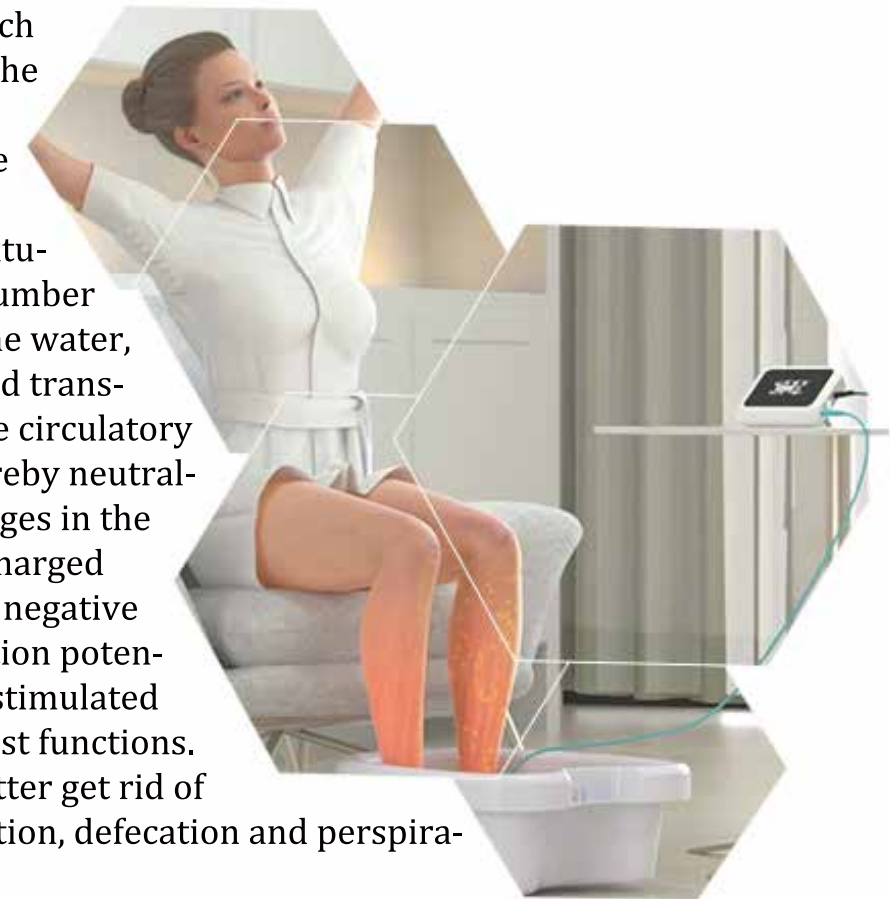

- 1. Targeting different groups of people: Male/Female/Child
- 2. Shows the concentration of negative ions. 2200-2600ppb is best for the human body.
- 3. Timing setting. Set the best use time to 30 minutes.
- 4. Exquisite and compact, suitable for home/outing/sa Ion/health center.
- 5. The alarm is automatically issued when it exceeds 2800ppb. Add water to dilute or change the water. Control the amount of salt

Operating Voltage:	100-240V 50/60Hz
Adapter Output:	15V ---/4A
Operating Temperature:	-10℃ -45℃
Maximum Power:	60W
Size:	15.38*13.42*37.8CM
Bare Metal Weight:	0.4KG

The ion detox machine is a high-tech water detox system that can help the body repair itself. Ion purification helps to eliminate toxins, stimulate the immune system and lymphatic system, and enhance the body's natural detoxification ability. A large number of negative ions are produced in the water, penetrate into the human body, and transport to the whole body through the circulatory system and lymphatic system, thereby neutralizing the toxins with opposite charges in the cells. These toxins are usually discharged slowly from the body, But after the negative ions enter the human body, the action potential is accelerated. The organs are stimulated and stimulated to perform their best functions. Therefore, the human body can better get rid of these toxins through normal urination, defecation and perspiration.

Ion Detox Infrared Physiotherapy Machine

Product name :	Ion detox infrared physiotherapy machine
Product model :	E817B
Voltage :	220V-240V
Frequency :	50-60HZ
Power :	100W

Main machine :	1 stations
Power Supply :	1 (3m)
Product size :	50*40*38.5 (cm)
Inner basin size :	23*34*35 (cm)
Net weight :	9kg

"Ion detox infrared physiotherapy machine" is a multi-functional physiotherapy equipment that can perform various physiotherapy on the human body by acting on the feet. Using far infrared rays, negative potentials, cell membrane water channels, cell ion channels and hydrogen molecules to selectively neutralize toxic free radicals, through electrolysis, hydrogen molecules, far infrared rays, and sodium, potassium, and calcium ions are converted and permeated. Promote human cell metabolism and material exchange, and expel the toxins and wastes deposited in the human body through more than 20,000 capillaries in the feet, so as to activate and repair cells, purify the blood, improve immunity, and achieve the effect of preventing and maintaining human diseases.

Foot Bath

Product Name	Foot Bath
Model	E817F
DC Power	120W
Max Current	5A
Voltage	24V DC
Packing size:	57.8*44.4*42.3CM
Gross Weight :	6.5KG

Revitalize Your Body from the Feet Up

Discover the power of intelligent foot therapy with our advanced Foot Bath system — designed to go far beyond traditional soaking. Equipped with an ion generator, this device initiates a micro-electrolysis reaction that enhances detoxification, promotes circulation, and activates your body's natural healing mechanisms. Integrated far infrared light therapy further penetrates deep into tissues to warm, relax, and rejuvenate from within.

Whether you're managing fatigue, chronic discomfort, or simply investing in better health, this Foot Bath is more than just a soak — it's a full-body wellness ritual.

Key Benefits

- Detoxification Effect: Helps expel body toxins naturally without the use of any chemicals.
- Improves Blood Circulation: Promotes smoother flow and oxygen delivery throughout the body.
- Eases Joint Pain: Alleviates stiffness and discomfort in knees, ankles, and other joints.
- Fatigue Relief: Offers quick relief from foot fatigue through consistent use.
- Boosts Immunity: Strengthens the body's defense systems through improved metabolism.
- Activates Cellular Energy: Stimulates bio-molecular activity to accelerate natural metabolic processes.
- Promotes Recovery: Regular use supports the recovery of tired feet and enhances overall wellness.

Hydrogen Water Ionizer Bottle

Name	Hydrogen Water Ionizer Bottle
Model	SDF-7861
Size	178 x 106 x 48 mm
Capacity	350ml
Power	5V 1A
Hydrogen Concentration	1000ppb
Net Weight	410g

"Hydrogen Water Ionizer Bottle" or hydrogenated water contains active hydrogen ions that act as powerful antioxidants in your body. The ions help to eliminate oxygen free radicals that contribute to the improvement of illness and ultimately responsible for the aging process. Our body takes in the H, and convert it into hydrogen anions, H' or commonly termed as active hydrogen. Active

Hydrogen is a powerful antioxidant as it is able to remove the active oxygen in our body that is known to be the cause of many types of chronic diseases. Molecular hydrogen also has anti-inflammatory effects besides its antioxidant properties. Inflammation is a silent killer that can cause many chronic diseases. Hydrogen has been found that it have anti-tumor effect either, Hydrogen rich water also called Water for Life, because it is good for our health, Sdyfu Hydrogen Rich Water lonzer Bottle utilizes a titanium platinum electrode to electrolyze 1000ppb high-concentrated hydrogen water, which is 2X volume greater than normal hydrogen water bottle and better effects. This Hydrogen Rich Water Botter adopts food-grade pc and BPA-free material, safer ,healthier and more durable. Detachable lonizer can connect to mineral water bottle directly, Comes with a nice handle rope which is convenient and portable to carrying out. Just share healthy hydrogen water with your friends and family whenever and wherever

Hydrogen Inhalation Machine

Name	Hydrogen Inhalation	Capacity	550ML	Function	Manufacture of hydrogen
Style#	SDF-XH01	Purity	99.99%	Rated Power	80W
Measurment	120x120x190mm	Input Power	DC 12V/8A	Output of H2	150ML/MIN
Prodcut N.W	1.6KG	Product performance standards: Q/GZYJ 1009-2018			

Features:

1. Stylish and simple appearance, small and portable, surface frosted stone processing technology, non-slip and wear-resistant, and enhance texture.
2. One machine with multiple functions, 150ML/min, 99.99% purity, the outlet is equipped with a nano-hydrogen dissolving rod, can produce high-concentration hydrogen-rich water.
3. Zero additives: no need to add any electrolyte or electrolyte.
4. Simple operation: inject distilled water or purified water, turn on with one button.
5. Imported core material: imported SPE proton membrane double-sided platinum coating, safe and efficient, long life.
6. Hydrogen and oxygen separation technology: SPE hydrogen and oxygen separation electrolysis technology, high-efficiency electrolysis, stable gas output.
7. Intelligent detection reminder function: water quality TDS monitoring, water shortage reminder, overheat reminder, fault reminder.
8. Timing function: 2 hours/3 hours working time can be set, and automatic shutdown is completed.
9. Intelligent heat dissipation system: overheating protection device, intelligent heat dissipation system, lower noise, and achieve a perfect inhalation experience

Hydrogen Inhalation Machine

Skaphor Vision Revival Device

Innovative technology for eye protection
Turn on the light of clear vision technology

Name	Skaphor Vision Revival Device
Model number	VRD-001
power supply	AC220N, 50Hz
Working Voltage	120V, 2A
Default time	The default time for startup is 20 minutes
Setting the time	5min、10min、15min、20min
Output Port	A set of energy output ports
Work Environment	Normal working environment temperature 5℃ ~40℃
Output intensity	00、01、02、03、04.....
Working relative humidity	Normal working relative humidity (RH): ≤80%
Net Weight	1.7KG

Skaphor Vision Revival Device – Advanced Light-Based Ocular Renewal

The Skaphor Vision Revival Device combines three cutting-edge technologies—Alpha Wave Stimulation Technology, Micropulse Photoreceptive Correction Technology, and Dynamic Light Frequency Modulation Technology—to deliver a solution for visual revitalization.

By generating bio-optical signals in the 0–100Hz range, the device stimulates retinal cells and supports the deep repair of visual pathways, enhancing the clarity and accuracy of retinal images. Its therapeutic light modulation mimics natural neural rhythms, activating dormant visual nerves, improving photoreceptor sensitivity, and releasing tension in the ciliary muscles.

Completely safe and free from side effects, this technology can also relieve dry eyes, alleviate visual fatigue, and even promote more restful sleep. Whether you're suffering from digital eye strain or seeking to regain visual clarity, Skaphor helps you see the world vividly, comfortably, and in full color—naturally.

Our Sales And Service

Our sales and service

Based on our goal and customers' demands, we need our sales team offer professional service to our customers: let customers have more understanding of the products and marketing situation, follow up the whole order from sample to bulk shipping to ensure quality control and on time shipping, return visits to customers sales and feedback, these all just help customers for our products business be better. We are always partners with our customers, not just manufacturer.

Our promotional video and professional files of products help customers' marketing promotion well and get high feedback.

Our 24 hours on line service support to help solve customer's problem in time.

Discuss the market and develop new products with customers to help customers open up more markets and enlarge business. Both of us grow up together.

All our products are the brand "SDYFU" developed and designed by ourselves, but we also welcome OEM and ODM orders. We hope that we can develop and improve together with our customers as partners.

Our sales marketing

With professional experience and high quality control, our products are allowed to win trust of our customers from all the world, especially in United States, Europe, North Korea and South-east Asia. These customers cooperate with Walmart, Macys and other big company , or have their own hundreds chain shops /spa centers, or have long histroy in such products. Of course there're some customers who have never been experience of these products, but finally we help them to build the business and develop it to be their main business. Most of our customers cooperated with us more than 3 years.
